

# JAPANESE PAPER STRIPS FOR MENDING

## Materials and equipment

- Japanese Paper (e.g. Tengujo, 2 g/m<sup>2</sup>)
- Metal ruler
- Metal needle or awl

## Procedure

Lay the Japanese paper on a support (e.g. cardboard), adjust the metal ruler to the required width of the paper strip

Run the needle along the metal ruler

Run the needle along the metal ruler

Detach the strip.

Prepare strips of differing width
